

# MachineLearning

---

## Introduction

This repository contains the code for the Machine Learning course at the University of Amsterdam. The course is part of the Master's program in Artificial Intelligence. The course is taught by Max Welling and Ivana Balažević.

## Repository structure

The repository is structured as follows:

- `code/`: contains the code for the assignments
- `data/`: contains the data for the assignments
- `report/`: contains the report for the assignments
- `README.md`: this file
